SUMMER HOLIDAY

Entry to wellness centre and water world also for children

In our wellness centre we are pleased to welcome also child visitors. Because we know during rainy days a wellness centre is the only rescue for the whole family, you and your children can enjoy getting wild in the swimming pool, try experience showers, or you can let them indulge in children's massage beneficial for their health.

Picnic in the Nature

Delightful sunny days are ideal for a picnic in nature. We will prepare for you a picnic basket with goodies to eat and something to propose a toast with. Surrounding meadows and forests are perfect for outdoor gastronomy experiences. Finding a place with beautiful scenery and enjoying stunning view of the country is very much recommended.

Cycling

The whole family expedition can join the roads for cyclists directly from the Kyčerka Resort. The routes cross the most beautiful places of Wallachia. It does not matter if you have experienced cyclists or less physically fit members in your team, you still have a lot to choose from. The region offers undemanding routes or technically undemanding routes along the ridges of the Beskids with breath-taking views.

Hiking

If you accommodate yourself in the Kyčerka Resort, you can look forward to unforgettable hiking trips. It does not matter which direction you choose for your trip, attractive hiking trails await you in all directions. Wallachia is a beautiful region with up to this time wild nature, mountain ridges, rock formations, flowering meadows, charming views and tower bells, and kilometres of marked hiking trails will lead you across the whole land.
